TOTAL SOFTWARE DEPLOYMENT

END USER LICENSE AGREEMENT
This license agreement is a legal agreement between you (the end user, either as an individual or an organization) and Softinventive Lab. The software "Total Software Deployment" and any of its supporting documentation and associated hardware are hereinafter referred to as the product.
By installing or using the product, you indicate your complete and unconditional acceptance of these terms and conditions. If you do not agree to the terms and conditions of this agreement promptly remove the product (including the associated documentation) from your computer.
If any provision of this agreement is found to be unlawful or void, then that provision shall be severed from this agreement and will not affect the validity of the remaining provisions.

GENERAL
As part of our services, Softinventive Lab agrees to provide freely downloadable evaluation versions of this software. Softinventive Lab agrees to provide this service free of charge. You agree to use the service in accordance with the License Agreement.
Softinventive Lab may amend or modify this License Agreement at any time.
The information contained in the product is subject to change without notice and does not represent a commitment or contracted obligation on the part of Softinventive Lab.

EVALUATION LICENSE
This product is distributed as shareware. This license agreement grants you non-exclusive rights to use the product for an evaluation period of thirty (30) days from the date you install and run the product for the first time. During this period, the product will have two functional limitations, namely: the number of scanned computers in the Network storage is limited to 50 nodes, and the amount of software that can be deployed simultaneously is limited to 5 deployment packages. On the thirty-first (30) day after you installed the product, you must either register the product by means of purchasing a Commercial License from Softinventive Lab or remove all copies of the product in your possession, and any related documentation.

COMMERCIAL LICENSE
After you purchase a Commercial License from Softinventive Lab for this product, the limitations of the evaluation version are removed. The Commercial License grants you non-exclusive rights to install and use a copy of this product (registering it with the obtained license key) to deploy software to the specified number of computers anywhere in the world.

The following types of licenses exist: licenses for internal use (25, 50, 100, 150, 250, 350, 500, 750, 1000, 1500, 2000 nodes, and Unlimited) and licenses for external use, i.e. for Managed Service Providers and IT Service Providers (MSP 100 nodes, MSP 500 nodes, and MSP Unlimited).

The licenses for internal use (non-MSP licenses) can be used to deploy to computers belonging to the company or organization they are registered to (including affiliated and subsidiary companies). The licenses for external use (MSP licenses) can be used to deploy to computers belonging both to the licensee and to its customers and clients. It is expressly forbidden to use the licenses for internal use (non-MSP licenses) for deployment on computers belonging to third-party organizations.

All license types can be used only by the person or by the staff of the organization they are registered to (including affiliated and subsidiary companies). Non-MSP licenses can also be used by the external staff that provides IT services to the licensee inside its computer networks.

The number of software installations with the same license key is not limited for any license type. For non-MSP licenses, the total number of computers that all installations deploy to must not exceed the licensed number, i.e. the license must cover all the computers that have been scanned by all installations. For MSP licenses, the licensed number only limits the number of computers that have been scanned by a single installation, but there is no limit on the total number of computers that have been scanned by multiple installations.

The validity period of the Commercial License is unlimited. This license includes time-unlimited free support as well as time-unlimited free updates.

You may make a single copy of the software only and no other part of the product in a machine-readable form for backup use only.

This License Agreement (including the product) is not transferable. You may not lend, loan, lease, rent, sell or distribute the product (or copies) in any form, except for reselling, when the license key is registered immediately to the end-user company name. Also, the license can be re-registered if the licensee company is taken over by another company.
